Winning 8 yrs straight the Robert Armstrong Memorial Trophy—Supreme Unhouseed Merino Ram or Ewe from Parkes, Peak Hill, Trundle Condobolin & Tullamore Shows

Fleeces Winning many Championships

Champion Med Ewe or wether FLC  
2018 Dubbo National Sheep & Wool Show

Overland Merino's are based on the purple Mandalay family,

We purchased Rams from Roseville Park starting back in 1988 and only selected from their purple family, carefully selecting the rich fine Medium types with close attention payed to structure, doing ability and wool cut. We later through the use of AI introduced RP 14 , we used him for 2 years over large, well covered , ewes with big meaty square back ends. This produced some excellent young sires which has left a strong genetic base of robust square heavy cutting sheep with a high quality wool that RP14 was known for.

The impact of this is seen in the results of clients receiving increased fertility, wool cut and a substantial rise in their profitability. Also with the ability for them to turn off wether lambs quickly, and capture good prices in the mutton market.

Overland Poll Merino was started with the purchase of RP20 from the on property sale at Roseville Park. Rp20 displayed great meat traits but also carried a kind wool testing at 18.5 micron . Then in 2014 "Titan" was purchased in Dubbo for \$25000 from the Orrie Cowie stud, Titan stood well on his feet with a great coverage of wool , he is a good doing sheep with great bone and structure, with this in mind was a great base to work with to develop our poll stud. In 2017 Eclipse 310 was also purchased from Orrie Cowie for \$35000 , He is a large (165kg) frame Ram with a soft white waxy wool that will compliment our sire base. In addition to this Overland has purchased "Eclipse 23" in 2019 for \$25000 from Orrie Cowie .He has a tremendous white wool and supple skin on a very correct frame with a leg in every corner. Great bone and depth of body, with a very pure soft muzzle.

# Client Success

Congratulations to the Westcott Family winning the Parkes Ewe Comp 2019

Nick and Ian receiving the trophy after displaying an excellent line of young ewes

Overland Merino's average adult micron 18.5-19.2
