## PRESIDENTS WELCOME

President of South West Slopes  
Merino Breeders Field Day

**Steve Phillips**

I would like to welcome everyone to the 2019 South West Slopes Merino Breeders Field Day.

This event, held at the Harden Showground has become one of the largest gatherings of merino studs in Australia, with 58 studs displaying sheep, all in one place on the same day.

Many thanks to our major sponsor Landmark and to all our other sponsors and supporters.

A big thankyou to our secretary Kylie Baluch for her hard work and commitment, and to all the South West Slopes Merino Breeders committee.

Records continue to be broken for merino wool, mutton and lamb despite poor seasonal conditions across most of Eastern Australia. The merino is definitely the shining light in Agriculture and fingers crossed for a favourable spring.

The field day is a great opportunity for producers and interested parties to view the different genetics available to suit their enterprise. Also on display will be agricultural equipment and industry representatives along with our impressive fashion parade which includes the AWI runway collection and other progressive and innovative woollen fashion labels.

The South West Slopes Merino Field Day is a day not to be missed by anyone in the merino industry and we look forward to seeing you there.

Regards,

**Steve Phillips, President**

## JUDGES

### Ross McGauchie - Competition Judge

Ross and wife Robyn manage Terrick West along with family.

Terrick West is situated 65kms North of Bendigo in Northern Victoria and consists of 10,000 acres, 1,500 of which are irrigated; running stud and commercial merino sheep, cereal and irrigated cropping.

The Terrick West stud, one of Victoria's leading Poll Merino Studs, sells around 200 rams annually with a vast increase in semen sales in recent years.

A life member of the Victorian Stud Merino Breeders and ASBA Committees Ross

regularly shows and sells rams around Australia's major sales as well as a very successful on property sale in August each year.

Ross has had a major interest in the development and growth of the sheep and wool show in Bendigo serving on the committee and as President for 5 of the past 9 years.

Ross is a strong believer in the importance of sheep shows and has been fortunate to have judged at many of Australia's major shows.

### Graham Wells - Return Judge

Graham Wells, co-founder of the One Oak Merino Studs, established in 1955 and Manager & Studmaster for the majority of their time as one of the leading Australian Studs, dispersed the studs and retired from breeding Merinos in 2014, following a most successful and influential career in Merino Stud breeding.

Throughout his career, Graham's foresight and innovation and has developed the fine-medium type Merino and the dual purpose Merino in Australia, both of which have proven of great value to the industry.

Graham's passion for the relevance, integrity and future of the Merino industry has seen him heavily involved in the technical committees at both NSW and National level.

He continues his involvement in genetic and performance research as a member of the steering committee of the Merino Lifetime Project, funded by AWI.

He has judged at the major shows in all states of Australia and New Zealand.

### Jack Kelly - Associate Judge

At just 22 years of age Jack is already in his 2nd year working for Egelabra Merino Stud and next year will be attending Marcus Oldham College to study Agribusiness.

He grew up on the family merino property 'Amoilla', 70kms north east of Hay NSW, and to this day still has a keen interest in the merino breed.

Jack attended Ballarat Grammar School for years 9-12.

## WINNERS

### 2019 Winners

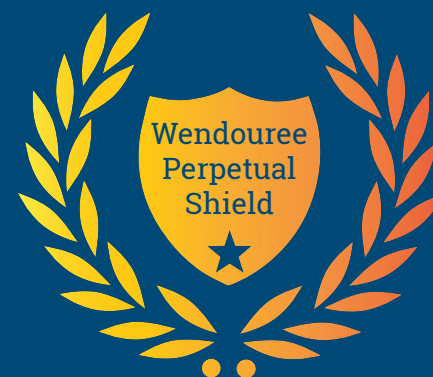

2019 SWS Stud Merino Breeders Ram Of The Year

2019 SWSSMB Pen of Three Merino Hogget Rams - Wendouree Perpetual Shield

Bill Carter Memorial Trophy for Spectators Choice, sponsored by Schute Bell Badgery Lumby

## Wendouree Perpetual Shield

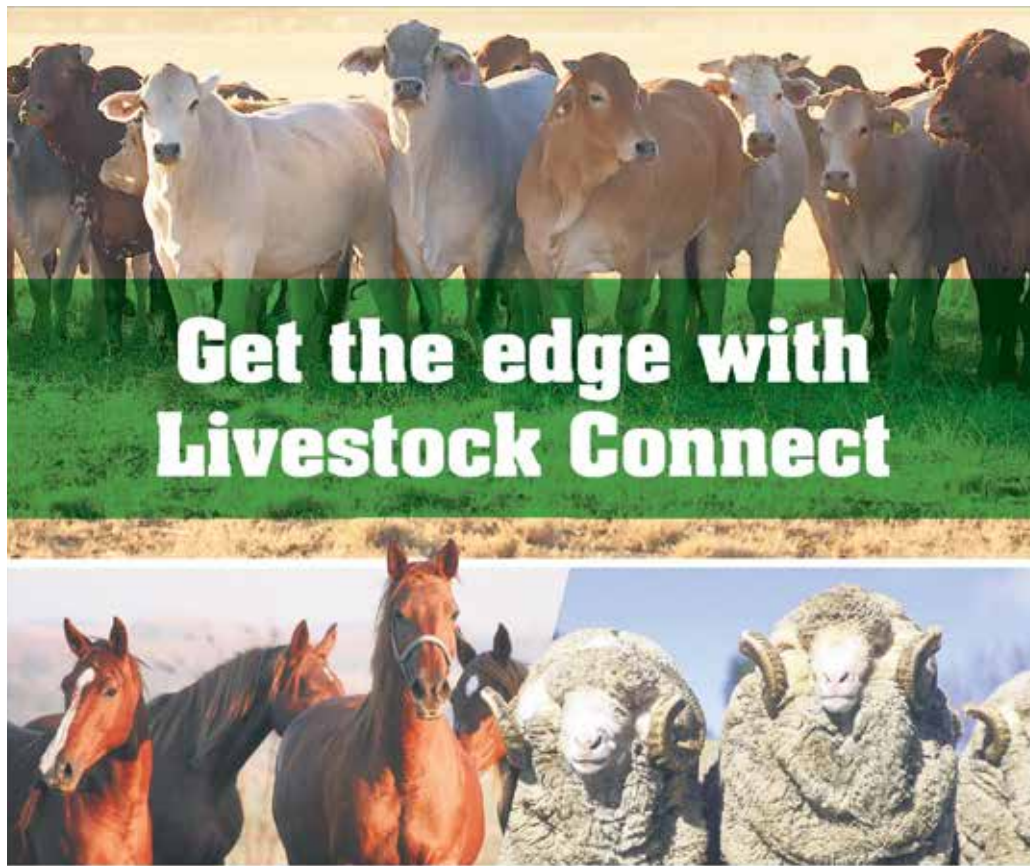

The Wendouree Shield, donated by Gwen & Jack Whitechurch, and sponsored by CJ Anderson will be awarded to the member Stud breeding & displaying the supreme pen of three merino hogget rams, showing no more than two permanent teeth. They will be appraised as a pen showing evenness of quality & conformation to be March tagged shorn. These rams will be typical of the sheep bred in the South West Slopes region.

2018 Winner:

**Yarrowonga Merino &  
Poll Merino Stud**

Zouch 0428 480 702

# MINIMISE RESISTANCE MAXIMISE RESULTS

**Widespread drench resistance<sup>1</sup> is a significant challenge for Australian sheep producers. It means your drenching program may be far less effective than you think and the time to take action is now.**

Zolvix™ Plus combines monepantel (the only 'orange' drench<sup>2</sup>) with abamectin, to help delay the development of resistance. Zolvix Plus provides premium broad spectrum control of sensitive roundworms in sheep, including strains with multiple resistance to older active ingredients and their combinations.<sup>3,4</sup>

Don't wait until other drenches are ineffective before integrating new drenches such as Zolvix Plus.

**Contact Elanco or your animal health advisor & find out how incorporating Zolvix Plus into your drench program can minimise resistance and maximise results.**

For full information, please refer to the registered label.

#### Important Information

DO NOT USE in lambs under 6 weeks of age or less than 10kg body weight.  
DO NOT USE in ewes which are producing or may in the future produce milk that may be used or processed for human consumption.

Resistance may develop to any chemical. Ask your local veterinary practitioner or animal health advisor for recommended parasite management practices for your area to reduce development of resistance. It is advisable that a resistance test be conducted before any parasite treatment is used.

Always use in accordance with the registered label directions and regional drench decision guidelines ([www.wormboss.com.au](http://www.wormboss.com.au)).

Meat Withholding Period: DO NOT USE less than 14 days before slaughter for human consumption.

Export Slaughter Interval: DO NOT USE less than 84 days before slaughter for export.

Re-treatment interval: DO NOT re-treat animals for 42 days after last treatment.
